

FLEXO WASH

HIGH PRESSURE CLEANER

This plate washer solution is used for high-pressure cleaning of water-based inks from flexo plates and flexo plate-sleeves, in plate washers, and in SL model anilox roll units.

FEATURES:

- Can be used in the rinse tank for PK systems
- Cleans water-based inks
- For use in automated cleaning systems
- Aluminum safe — safer for parts, plates and sleeve washers
- Manufactured in the U.S.

BENEFITS:

- Eco-friendly cleaning solution
- Long tank life
- Water-based solution; mixed 1:9 with water
- Solution is filtered and recirculates
- Ease of use

USE INSTRUCTIONS: Mix High Pressure Cleaner 1:9 with water (cleaner:water). Set machine temperature to 120°F - 140°F.

RECOMMENDED FOR: Plate washing, parts washers, sleeve washing in FW model units.

VOC (LBS./GAL.): 0.30 (36 grams per liter)

HMS RATING: Health 2, Flammability 0, Physical Hazard 0

FOAMING: Low at use conditions

PACKAGING: 5-gallon kits and 55-gallon drums

ABOUT FLEXO WASH LLC

Flexo Wash technology helps customers print better. Our products will extend the life of anilox rolls and sleeves, gravure cylinders, flexo plates, flexo plate sleeves, press parts and rotary screens, while decreasing the make-ready down time between job runs. Flexo Wash provides "Leading Cleaning Technology" and we are the only company in the world to offer cleaning systems for every need.
